TKNY announces the development of the first urban lifestyle entertainment retail crib

Dates: May 18-21, 2002

Location: TKNY 21 Avenue B, SS, New York, NY 10009 (between 2nd and 3rd St)

Opening party: May 19, 2002 7:00PM RSVP required

Compact - Impact is the first show presented by TKNY. Compact Impact is an idea laboratory. It's an aesthetic collective. And it's a great place to see the future of technology, and meet the people who make it. Our premiere show consists of following two categories:

1) Compact-Impact Presents the Best Of Products

Curated by a panel of ten highly respected experts from the worlds of high-tech design and development, this astonishing collection of entertainment technology will highlight those breakthrough products that led the way in imagining new ways that technology can impact urban lifestyle.

2) Compact Impact Presents the Best of What's Next

This is your chance to get a sneak preview of tomorrow's technology, today. We'll have advanced prototypes and conceptual installations developed by various creators, and introduce you to international creators working in a range of media, from software and hardware development to furniture and toy design, and multi-media art.

TKNY is an idea lab where the latest in urban lifestyle technology is conceived of, developed, and made available to the public. TKNY will open April 2002 on the ultra-hip lower east side of Manhattan, which has become New York's hottest neighborhood when it comes to pushing the boundaries of DJ culture, art, music, fashion and new technology.
